

Sergio Colpaert

Product Designer — UX/UI, Design Systems & Strategy

Rio de Janeiro, Brazil · sergio.colpaert@gmail.com · +55 21 96898-6172 · linkedin.com/in/sergio-colpaert · behance.net/sergiocolpaert

PROFESSIONAL SUMMARY

Product Designer with 6+ years of experience translating business needs into functional digital experiences. I work end-to-end — from research and problem framing to handoff and follow-up — balancing user experience, technical viability, and business impact. Familiarity with HTML, CSS, and JavaScript accelerates prototyping in tools like Cursor, v0, and Figma Make, and enables direct dialogue with engineering.

SKILLS

Product Design	Product Design · UX/UI · Design Systems · Prototyping · Wireframing · Information Architecture · Human-Centered Design (HCD)
Research & Validation	Qualitative research · Usability testing · Discovery · Hypothesis validation · Product metrics analysis
Tools	Figma · FigJam · Cursor · v0 · Figma Make · Notion
Technical Differentials	HTML · CSS · JavaScript · Digital accessibility (WCAG)
Languages	Portuguese (native) · Spanish (advanced) · English (intermediate)

PROFESSIONAL EXPERIENCE

UX/UI Designer

Agência Really · 04/2025 — Present · Londrina, Brazil (Remote)

- Lead the full design cycle for digital products and web platforms serving B2B and B2C clients across different industries.
- Work on stakeholder requirements gathering, journey mapping, information architecture, prototyping in Figma, and validation with clients.
- Structure design handoffs with documentation of components, states, and interaction rules, collaborating directly with technical teams.

Co-founder & Product Designer

Sitefy Studio · 03/2021 — 10/2024 · Remote

- Co-founder of a digital operation focused on design and development of web products for B2B and B2C companies, working as lead Product Designer.
- Conducted end-to-end design processes: business context investigation, journey mapping, information architecture, prototyping in Figma, and validation with clients and end users.
- Structured modular Design Systems and scalable component libraries to accelerate recurring deliveries and ensure visual consistency across platforms.
- Made strategic decisions alongside my partner: project prioritization, scope definition, and balance between deadlines, quality, and technical viability.

Co-founder & Designer

Orun · 01/2019 — 03/2020 · Remote

- Co-founder of a digital operation where I worked on early interface design and visual identity projects for various clients.
- First entrepreneurial experience, with hands-on learning in business decisions, deadline management, and balancing design with strategic objectives.
- Built visual fundamentals (typography systems, palettes, hierarchies) that supported client brand communication.

EDUCATION

Technology Degree in Systems Analysis and Development

Centro Universitário IBMR · 02/2025 — 06/2027 (in progress) · Rio de Janeiro, Brazil

CERTIFICATIONS & COURSES

Figma to Framer with AI Workshop

Kácio Filipe · 2025

Programming with JavaScript

Meta · 2025

Introduction to Front-End Development

Meta · 2025
